Choi Chei-ou was among the victims. His death caused intense judignation and a deep resentment against the Government, which was fostered by the general Shanghai, LANE, CHAWFORD & Co., discontent in the country. It was not, however, until 1893 that the irritation came to a head. A strong body of Tonghaks went to Seoul to demand posthumous honours for their murdered leader and recognition for their faith. They were appeared for the moment, but, finding that the promises made to them KING EDWARD ON or about 15th FEBRUARY next, were not kept, in April of the following year they set about the carrying out of a threat to ex, of all the foreigners from Apply to HUMPHREYS ESTATE AND Corea. Outbreaks occurred in several places in the south, and the cause became 28 so popular that by May from 20,000 to 30,000 men were said to be in insurrection. The Government sent troops, some by land and others by sea, to suppress the LIOUSE No. 2, QUEEN'S GARDENS robels, but after gaining some success, the troops were trapped in an ambush among Meesrs JARDINE, MATHESON & CO. rocky fastnesses and were badly beaten in 2504 an engagement in which they lost 300 men and a high officer. wanted. Events moved so rapidly that the Tonghaks were speedily forgotten, but in July Japan was demanding in the name of reform a great many concessions, not from Corea but from her suzerain, China. On the 1st of August the jealousy of the two nations had resulted in the outbreak of hostilities. For Sprains

THE right time to treat a sprain is the minute you get it, and the right remedy to use is CHAMBERLAIN'S PAIN BALM. You can say what you will about this or that thing being good for a aprain, but Chamberlain's Pain Balm beats them all. The quicker you rub it on, and the more you use it, the sooner the sprain will be gone. Even if Chamberlain's Pain Balm gets you back to work one day quicker than other remedies, it will pay for itself several times, but it generally cures a sprain, strain, or a bruise a week before anything else, and a week's wages amount to a good deal to most people. One application gives relief. For sale by all chemists and medicine vendors; WATKINS Ltd., General Agents.

THE RECENT INDICTMENT OF HONGKONG.

Some Facts About Mr A leyne Ireland.

We take the following from The Times

of Ceylon :-It will be remembered that in September The Times published an article from the pen of Mr Alleyne Ireland seriously reflecting upon the civil servants of Hongkong. A vigorous defence of his subordinates was undertaken by Sir Henry Blake, the then Governor, and his letter was reproduced in our columns. It may interest our readers, and particularly H.E. the Governor, to learn who Mr Alleyne troland is. The following facts were given to us by Mr H. C. Pearson, our American visitor, who knows Mr Ireland very well. Mr Pearson first of all corrected a misapprehension. 'Mr Ireland, he explained, 'was not paid by Chicago University to go and 'write up' your colonial administrations. He simply travelled under the egis of that institution.

Mr Ireland, it appears, is an Englishman -born in Manchoster in 1871-who migrated to America many years ago. He was a bright young man and a clever writer. Some articles that he wrote concerning the Boers attracted the notice of the late Lord Pauncefote, the British ambassador at Washington. He was practically brought out by that distinguished diplomatist and wrote a number of articles on the question of cooly labour, which points to the fact that he had been in the East before. He was also popular as a lecturer and could command his 100 dollars a night for that work. After a time he ingratiated himself with the Chicago University authorities and obtained permission to use their name for the work he intended to carry out in the East. Thue he was simply a man, said Mr Pearson, who tried to make as much as he could get by writing up sensations. He had as his so-called manager, an American named Dr Thorpe of Boston. This Dr Thorpe came to Mr Pearson one day and informed him that Mr Ireland had obtained a concession of 20,000 aeres of land in British North Borneo, which he wished to exploit, if he could secure the necessary capital, for its gutta percha. Mr Pearson declined to have anything to do with the speculation, and suggested that Mr Ireland might obtain what he wanted in England

where the people knew something about it. Mr Pearson thought it 'a great shame that such a man should turn on his hosts He would be shunned wherever he went, particularly in America.

He Found Relief

CEORGE RUDKIN, Town Clerk, Kumara, New Zealand, says :- i have very great pleasure in stating that, having used Chamberlain's Pain Balm in a very severe attack of scintica, I found immediate relief. . Had before tried many other embrocations for the same purpose, but found this the most efficacious. Several of my friends who have been afflicted with rhoumatism have, on my advice, tried Chamberlain's Pain Balm with equally good results. I confidently recommend it to those in need of a good household liniment or embrocation." sale by all chemists and medicine vendors; WATKINS Ltd., General Agents.

We understand (says the Bangkok Times of the 26th December) that the Govornment has decided to send Dr H. Adamsen, Inspector-General of Hospitals, to the Philippines to study the latest treatment of the diseases of cattle, but more particularly of rinderpest. It is intended to procure the most modern and most scientific remedies and modes of treatment for this disease which is causing so much distress among Siamese agriculturials who depend so much upon the buffalo for the cultivation of their rice fields. Dr Adamsen will start about the beginning of the new year, and will be accompanied by Dr Att of the Hospital Department. The American hospitals in the Philippines will be visited and enquiries made as to the advisability of the Siamese Government establishing a laboratory for the manufacture of vaccine virus. The Inspector said that coolies habitually loitered about the place, despite the fact that notices printed in English and Chinese were distributed about. When a constable appeared they ran away, but soon returned. Complaints had been made by the Naval Authorities respecting the matter, and the only remedy the Inspector saw was to arrest the offenders. No Ordinance provided for loitering in the streets, so a notice was prepared by the Capt. Superintendent of Police, which received the consent of the Governor, and was posted up in the street. Road Central, occupied by Chang Chung Chouk. The building and contents were gutted before the fire was mastered. The brigade, under Chief-Inspector Baker, was quickly on the scene, but, as the fresh water was turned off in the mains, the men were at a disadvantage. The eggines were brought out and by the time the fresh water was turned on, the engines were supplying a good stream from the sea. When the brig de commenced operations the fire was burning fiercely, and shortly afterwards the roof collapsed, sending myritds of sparks, and volumes of smoke towards the sky. The ladders were un up and the water was played directly on to the flames, through the top the house. Fortunately, the inmates of the upper portion of the house were absent at the time of the fire, otherwise fatal results may have followed the fire. The whole building and stock were interest her. destroyed before the fire was put out, but the firemen were successful in confining the conflagration to the one building. The fire is supposed to have been started by the cook employed on the premises to the first floor for some with a lighted torch in his hand, which he is supposed to have dropped near some inflammable material. The ground floor was used as a foreign goods store and a jeweller's shop, while the first and upper floors were used as dwelling places. The damage is estimated at \$14,000. \$12,000 of which is covered by insurance. Nunccidents or fatalities have been reported in connection with the blaze.

It is evident from the low scoring in the second innings of both sides that the wicket was badly damaged. The Englishmen's score of 105, even with Foster absent, is remarkably small for such a strong batting side, which has been pusting together big scores during the tour. In the past, the

test mutches have been more remarkable for high rather than low scoring, and we find from the records that while the Australians hold the record (CS6 runs) for high scoring, they also hold the record for the lowest score with 36 at Birmingham in May, 1902. Vengennee's 34ft. cutter, Mr Fleming. the funds would be engraved on tablets, and displayed in the Hospital, so that their memory might be kept alive for future generations. The Hospital was not only intended to provide facilities for the atudy of particular diseases, especially those of an epidemic character. New methods would be applied, and by the generosity of one of their residents, M. Robert Lebaudy, a bacteriological laboratory was to be established. It was their ambition that the Hospital should allowed 25 min. be taken advantage of by all, without distinction of class, race or creed, and he bespoke for the institution the continued assistance of those present, in order that the benevolent intentions of the founders

should be carried into effect. On behalf of the Viceroy, Kan Erh Kien read a short speech approving of establishment of the Hospital, which had been created in the interest of public health, and expressed the hope that it would be successful in combating the serious epidemies, which every year caused severe ravages amongst the population of Canton. He expressed his thanks to the The Ill-Starred 'Prince George.' Governor General of Indo-China, M. Beau, M. Doumer, M. Hardouin, M. Doire, and to the Medical Officer in charge of the Hospital, Dr. Mas, and also thanked those of other nationalities who had contributed to the foundation of the Hospital. The speech was first delivered in Chinese,

warmly applauded. Two other Chinese delivered shor speeches. course of which he referred to the brilliant work that had been accomplished by M. of ConsulGeneral at Canton. His premature departure from Canton was deeply regretted by then all, but it was satisfactory to them to know that he had been able to assist

them though absent from that city. No one was better qualified than M. Hardouin to open the doors of that establishment, of promoting friendship between France and China. Began modestly, they hoped the Franco-Chinese Hospital would grow \$40,000 allocated by M. Doumer, and the gift of Francs 25,000 from M. Robert

had been received, but the lists were not yet closed. The Hospital would be administered by a Council of ten memday by day, and the assurances of help which they had already received from Cantheir love for their mother country, and their recognition of what was being done for the benefit of their people at home. Ho returned thanks to all the generous benefactors and donors; and after his

speech had been translated to the Chinese, the proceedings terminated. Mr. W. Danby, M. I.C. E., of Hongkong, designed the buildings and superintended difficulty, their construction.

FIRE AT CANTON.

AWONDERFUL DISCOVERY. This is the age of research and experiment, when all nature, so to speak, is ransacked by the scientific for the comfort and happiness of man. Science has indeed made giant strides during the past century, and among the by no means least important—discoveries in medicine comes that of Therapion. particulars of which will be found in another SINGAPORE.

particulars of which will be found in another column. This preparation is unquestionably one of the most genuine and reliable latent Medicines ever introduced, and has, we understand, been used in the Continental Hospitals by Ricord, Rostan, Johert, Velpeau, Maisonneuve, the well-known Chassalguae, and indeed by all those who are chassalguae, and indeed by all those who are was some time since uniformly adopted, and that it is worthy theattention of those who require such a remedy we think there is no doubt. From the time of Aristotle downwards, a polent agent in the removal of these diseases has (like the famed philosopher's stone) been the object of search of some hopeful, generous minds; and far beyond the men power—ir such could ever have been discovered—of transmuting the baser metals falo gold is surely the discovery of a remedy so potent as to replenish the failing energies of the combined rous in the

one case, and in the other so effectually, speedily and safely to expel from the system without the sid, or even the knowledge, of a second party, the poisons of acquired or inherited disease in all their protean forms as to leave no taint or trace behind. Such is The New French Remedy Therapion, which may certainly rank with, if not take precedence of many of the discoveries of our day, about which no little estentation and noise have been made, and theextensive and ever-increasing demand that has been created for this medicine wherever introduced appears to prove that it is destined to cast into obliviou all those questionable remedies that were formerly the sole reliance of medical men.
